FOR EDUCATORS | Teaching Project Management

Project Management Curriculum And Resources

The curriculum guidelines are flexible so faculty can create a project management course or program or enhance an existing course tailored to the discipline in which they teach and to their students' needs. You will find:

- Instructional materials for foundational and advanced courses
- 30 topical knowledge modules that provide student learning outcomes
- Course outlines specific to geographic region and discipline
- An online open-source forum for faculty to share resources and relevant course content

PMI Global Accreditation Center for Project Management Education Programs (GAC)

GAC is the global accrediting authority for project, program, and portfolio management, accrediting academic degree programs at the bachelor's and postgraduate levels in universities and colleges throughout the world. GAC accreditation:

- Demonstrates a commitment to educational quality and continuous improvement
- Represents peer recognition and achievement of quality benchmarks
- Advances the profession by promoting standards of practice and advocating rigorous preparation
